POST

200,000 cars off the road . . .

November 28, 2020

“The Triangle”—Regional Environmental Treatment and Climate Change Mitigation

The “Triangle” will also be one of the largest industrial community climate change mitigation projects in the world …

---“In addition to allowing companies to outsource pollution, this project will be one of the largest climate change mitigation projects in the world.”- Jed Anderson, Attorney & Environmental Entrepreneur

200,000 cars off the road …

Our goal with this regional environmental treatment project is to also capture and treat approximately 1 million pounds of greenhouse gas equivalents that will be included in these emissions streams.
