POST

Air modelling . . .

July 19, 2021

changed forever!

Air modelling is being built into EnviroAI's Quantum AI Environmental Protection System as a real-time, continuous, dynamic look into system change.

REAL-TIME.

CONTINUOUS.

DYNAMIC.

Quantum AI Environmental Protection

System Modelling and Monitoring

---"Currently air models are static. A facility might perform a modelling exercise once and never perform one again. Our system will be performing modelling exercises thousands of times per hour—giving operators continual feedback on the potential environmental impacts of their operational decisions."

- Jed Anderson, CEO, EnviroAI
