POST

Can anyone help with a connection please? . . .

May 10, 2021

The Finish Line … we're looking for a consulting company partner and one more $ million in investment money to speed-up final completion of "PHASE 1 AI/ML"

This product is intended to compete with EDR and ERIS …

… and we're almost finished with our MVP!(see screenshots below)

Can anyone help with a connection to get this AI/ML product across the finish-line faster?

We are looking for:

1. A consulting company that can put this product quickly to work once completed
2. One more million dollars in investment money to speed up the final coding work over the next 3 months

Phase 1 AI/ML

—"One more million dollars in coding work over the next few months and this IoT/ML product will be ready to go."
