POST

Computer . . . vs. Human

April 21, 2021

Who's faster at environmental due dilligence?

Here's screenshots of the latest environmental assessment tools in EnviroAI's automated Phase product:

Topos …

Aerials …

Automated property data …

The answer is a human with a computer system that's able to gather vast amounts of complicated environmental data and simplify it in just seconds for final human analysis and decision making.

---"We're augmenting the mental and physical capabilities of environmental professionals."

- Jed Anderson, CEO, EnviroAI
