POST

Earth was never going to make it

Originally written: May 3, 2026 · Published here: May 13, 2026

Earth was never going to make it. We are why it might. That's the closing line of a children's book I just wrote. Same thesis I've been working on for years: Environmental Superintelligence, Earth Rules, why minds matter to a planet … translated into something an eight-year-old can hold. For children of every age. Link in the comments.
