# Eliezer Yudkowsky:??There are no hard problems, only problems that are

Originally written: February 1, 2026 · Published here: May 13, 2026

Eliezer Yudkowsky:??There are no hard problems, only problems that are hard to a certain level of intelligence. Move the smallest bit upwards [in intelligence] and some problems move from “impossible” to “obvious.” Move a substantial degree upwards, and all of them will become obvious.”

This new equation helps answer, explain, and predict …

- Why is AI becoming so powerful?
- Why is society advancing so quickly?
- Where are we headed?

Exciting times.
