POST

Famine to Feast----Are Companies Now Scrambling for Environmental Digital Tools?

June 15, 2021

Is this the surge we've been expecting? … Are companies trying to use more digital tools to increase global competitiveness and satisfy regulatory/ESG burdens?

We just added another $10 billion chemical company to our customer list yesterday …

THE SCRAMBLE FOR ENVIRONMENTAL

DIGITAL SOLUTIONS

Is this the surge we've been expecting? …

Companies will be scrambling as fast as they can at some point to find environmental digital tools (machine-learning, data, robotics, remote-sensing) to augment their staff capabilities in a move to increase global competitiveness and satisfy increasing regulatory/ESG objectives. The move, when it starts, will feel like its happening almost over-night.

EnviroAI

In addition to providing environmental intelligence, here are some of the tasks EnviroAI is automating/augmenting:

- Permits
- Due Diligence
- Phase 1s
- Remote Monitoring
- Modeling/Digital Twin
- Environmental Inspections
- Emissions Inventories
- Compliance Reporting
