Get Paid to Reduce Pollution!

February 12, 2020

New entrepreneurial investment to pay companies for reducing polllution —“EnviroMonetizers”

Get Paid to Reduce Pollution!

Paying Companies to Reduce pollution

AL Investments announces “EnviroMonetizers”

Receives an Intelligence Boost from Ceres AI

Recently Ceres AI announced the development of “The Generator”—an emissions reduction AI tool (see below). The development of this AI tool, and work performed by the AL Law Group in this arena, has led to the formation of an entrepreneurial investment by AL Investments called “EnviroMonetizers”.

EnviroMonetizers finds emission reduction opportunities at no up-front cost to companies in exchange for 25% profits from reductions. AL Investments previously announced a $224,000 investment in a proposed wastewater project (http://r20.rs6.net/tn.jsp?f=001qj8qHbdvsGV0zypBFPC7pOFkgGgNuVBVruV0jaMl9Y4nmTRmRCBPfMkqG6Y2-mwZvvU-HgrEh6kltGUPIJEYHjC90ECjhPp03flgKsVU3W6NIyAJjI5OJZGpsK1NT7fnIJpH-CHFJesx-bn0dnTPvzw==&c=&ch=) that also is taking advantage of the intelligence in Ceres AI.

$ Get paid to reduce pollution before the reduction is potentially mandated anyway.

$ Get paid to reduce pollution below major source thresholds.

$ Get paid to boost value with shareholders by decreasing your company's pollution footprint.

Not all facilities will qualify and results will vary. EnviroMonetizers however will evaluate each facility at no up-front cost.

Ceres AI has a list of all sources in Texas and data showing which sources can be further controlled. Ceres also has company's environmental contact information, permit information, emissions inventory information, and regulatory submittals.

---"We see tens of millions of dollars of opportunity in EnviroMonetizers—and just another fun way to use the intelligence in Ceres AI to reduce pollution and help people." —Jed Anderson, AL Investments and Creator of Ceres AI

More powers on the way!

Check out these new environmental artificial intelligence applications.

- "Air AI" - Assists customers with preparing air permit packages.
- "The Generator" - AI that helps customers find and evaluate emission reduction credit and pollution reduction opportunities.
- "The Citizen" - AI that allows customers to more easily and quickly view violations, deviations, compliance orders, emissions events, lawsuits, news articles, current pollution levels, social media, and agency correspondence.

- “Benchmarker” - AI that compares a customer’s facility with selected competitor’s facilities in terms of permit conditions, compliance performance, emission reduction opportunities, and other criteria.

INTELLIGENCE. DATA. POWER. SPEED.

Purchase Ceres AI today. Use immediately. Be the first in line to experience these upcoming powers.
