POST

Goldman Sachs . . . Quantum Physics Experts????

July 17, 2021

Harvard Business Review article … why financial companies and other non-technological oriented companies are investing so heavily in quantum computing

Why is Goldman Sachs and investment bankers learning quantum physics? Article yesterday related to this in the Harvard Business Review (https://r20.rs6.net/tn.jsp?f=001iZRdLxoJ62y-2BrUxK1wcntRj13HTjf7kiTmuEDPBGdRxzAfhFvhA89PNMnMXca5AlpUNn4IMoOdu3wac9HKE-lemfgqK2GFnqPhmUySsgy9p99B_NeRl1sdrs5UMV0jiZMgQxYzCKylzslt8WS4Gx4OxvUPzntFstOW05uKIzOCnDaJTFdwBOvBOW1s8mtY1cVhihWsK-8=&c=&ch=)

Financial systems are based in probability. What makes quantum computing so special isn't necessarily the additional computing power, as exhilarating as that will be, but the simulation power … the understanding power … the manipulation power of systems based in probability (i.e. financial systems)(i.e. natural systems)(i.e. EVERYTHING).

Nature? Digital vs. Quantum Understanding and Representation

---"Currently we are counting the relationships in nature essentially using our fingertips. The problem with our fingertips is that they are limited and non-probabilistic."

- Jed Anderson, CEO, EnviroAI
