POST

“I solved it.”

Originally written: February 6, 2018 · Published here: May 12, 2026

I solved one of our nation’s biggest challenges.

I figured out how to reduce more pollution with less regulation and cost. The Draft Clean Air act of 2018 (https://allawgp.us3.list-manage.com/track/click?u=611347db42afb8e0ce5722866&id=9b0bd8c490&e=636052b3dc) reduces more pollution and addresses climate change—while reducing regulation by 75% and increasing personal and corporate freedom. It was not by adding more complexity to the system that I accomplished this. It was through simplicity (https://allawgp.us3.list-manage.com/track/click?u=611347db42afb8e0ce5722866&id=92a24c54ec&e=636052b3dc).

> *“—-“Simple can be harder than complex: You have to work hard to get your thinking clean to make it simple. But it’s worth it in the end because once you get there, you can move mountains.”**– Steve Jobs”*
