I win.

March 9, 2020

I’ve got more intelligence.

Muhammad Ali had no qualms with telling people when he became the greatest. I don’t either.

I Win.

I’m not necessarily smarter than everyone … I just now have more intelligence than everyone. Ceres AI has memorized millions of documents and data-points, and we’ve implemented AI algorithms and visualization tools so that I can more easily access this data faster than everyone else. It’s delivering augmented human environmental intelligence. I simply can access more stored information faster than everyone.

—Intelligence is not the ability to store information, but to know where to find it.”---Albert Einstein

—Whoever leads in artificial intelligence will rule the world.”---Brookings Institute

—Whoever has the most data wins.”---Former CIA Official

—“Whoever leads in artificial intelligence will rule the world.”---Vladmir Putin

—“Whoever has the best algorithms and the most data wins”---Pedro Domingos, Author
