POST

If humanity is building BCIs to interface with AI, then

Originally written: April 12, 2025 · Published here: May 13, 2026

"If humanity is building BCIs to interface with AI, then perhaps it's time to ask'can nature interface too? We're exploring a future where the forest itself might whisper through sensors, and AI listens, learns, and responds. This isn't science fiction. It's the next frontier in environmental intelligence." ? Jed Anderson, CEO, EnviroAI & Environmental Futurist
