POST

Is my industrial plant sick?

December 12, 2020

Advanced environmental diagnostics---The latest EnviroAI Apps to soon be unveiled!

Is my industrial plant sick?

How can I help make sure its healthy and stays healthy?

Two new advanced environmental diagnostic tools are coming soon to the EnviroAI App Store. One is a fixed optical gas camera app. The second is a fence-line open-path FTIR app. Both detect real-time pollution (see image above).

ADVANCED ENVIRONMENTAL DIAGNOSTICS

---“These high-tech environmental apps are like getting a constant EKG or MRI of the health of your industrial facility. If companies want to keep themselves and their workers and neighbors healthy—these advanced environmental diagnostic tools coupled with the power of AI to analyze and provide actionable insights on the data are the future of environmental medicine. More data. More intelligence. More power. More health.” - Jed Anderson, Creator, EnviroAI
