Bezos sees AI has a solution to intractable problems:

---"We are now solving problems with machine learning and artificial intelligence that were … in the realm of science fiction for the last several decades." - Jeff Bezos, CEO, Amazon

It is likely that much of Bezos' $10 billion climate funding will be spent on AI-based projects.

Ceres "Air AI' in Development

“Air AI” is scheduled for deployment on June 1. Air AI will provide users access to coordinated TCEQ and EPA information … along with social media, news articles, internet results, agency documents, permit information, enforcement proceedings, emissions inventory information, emissions event information, and other air quality data. Ultimately the technology will provide real-time emissions data along with unit attribution data … all on a geocoded platform.

Quantum Internet … A Major Breakthrough

A quantum entangled optical connection has now been extended to 50 km. Science, Nature, and Physics all covered the story. A quantum internet will eventually allow for essentially instantaneous communication of unlimited data. Although Einstein called quantum entanglement “spooky”, its becoming increasingly handy and outright “jaw dropping” in recent computing and communications advancements.
