POST

OpenAI . . . Google

Originally written: October 16, 2024 · Published here: May 13, 2026

OpenAI … Google … Microsoft … Meta … Anthropic … . . . all are pursuing Artificial General Intelligence (AGI). EnviroAI will build on these company's base-systems … but is pursuing Environmental General Intelligence (EGI) or "Environmental SuperIntelligence". We are the only company pursuing such an intelligence that is more nature inclusive and encompassing. We also believe this is a potential safety issue. AI must be aligned with the interests of all life on earth—not just human intelligence and interests.

For more information, please contact us at info@enviro.ai or visit our website at www.enviro.ai (http://www.enviro.ai)
