… I've offered $12 million to get started

Skyline with No Flares

—This hasn't been seen in over 75 years in these communities

---"Creating a New Visual Landscape option for the Deer Park/La Porte Communities and the Petrochemical Industry in the Houston Ship Channel Area … the 'Triangle' "

ACHIEVABLE … together we can do this!

I'm glad so many of the 10,000 of you are excited and talking about this project. Thank you for your comments.

I made an initial offer of $12 million for the property.

This will be a full community project (e.g. the industrial community and neighborhood communities). Everyone, including service providers, are welcome to participate. It will take all of us working together. And all of us will benefit. What an incredible new skyline we can build together.
