POST

The Power of Data Visualization

May 15, 2020

Stimulating human environmental problem solving---Enviro AI

—“For 20 years …

I had to visualize in my head where emission points were located, what they looked like, and what other sources/receptors were located around them … and then make the mental jump and link this with emissions, control, compliance, or regulatory information… .

Now I can see all of it together in seconds.”- Jed Anderson, Creator, Enviro AI

VISUALIZE

----“By visualizing information, we turn it into a landscape that you can explore with your eyes, a sort of information map.” —David McCandless

---“Visualizing data changes how data are understood and increases interest in data generally, which will encourage more and better data to be developed.” – Robert Kosara

---“The art and practice of visualizing data is becoming ever more important in bridging the human-computer gap to mediate analytical insight in a meaningful way.” —Edd Dumbill

---“Visualization gives you answers to questions you didn’t know you had.”—Ben Schneiderman

ENVIRONMENTALINTELLIGENCE.DATA. POWER. SPEED.
