POST

Trump Announces $1 Billion Investment in AI and Quantum Computing

September 24, 2020

Environmental Quantum AI

Quantum. Nature. AI.

I've written extensively on the relationship between quantum physics, artificial intelligence, and nature (see example links below). It will benefit you significantly to gain just a basic understanding of quantum physics and how machine learning works---and you too will see the probabilistic interconnection. It will excite you like nothing you've seen before. Just thinking about the resulting simplicity and how this will transform environmental protection will make you want to stand up on your chair and cheer bravo to both God and humanity… . Bravo!
