POST

# We're buying our customers . . . VR headsets!!!

December 20, 2021

ENVIRONMENTAL METAVERSE---“We’re building the EnviroVerse for our customers, nature, and humanity as fast as we can!”

Moving quickly …

EnviroAI’s oversea’s team codes at night and the U.S. team turns around the code during the day …

…”EnviroAI is buying our customers VR headsets to help with beta testing and development of the EnviroVerse.”

3 key design features to the EnviroVerse:

1. Component of the metaverse
2. Inclusive of nature [It is the only metaverse ecosystem that includes nature as a component—all others are focused only on human needs and desires
3. Quantum-based [Eventually the EnviroVerse will be quantum-based since nature operates more fundamentally at this level]

Our development team completed 3D implementation last week. This week we are working on avatar creation. Stay tuned!
